FLYING TURTLE

• BEVERAGE •

Dear Future Customer,

Welcome to FLYING TURTLE, where technology and innovation meets the art of beverage making. Our mission is to bring the café experience to everyone, anytime, with convenience, consistency, and quality you can trust.

Flying Turtle is not just another vending machine. Each of our machines combines cutting-edge robotics and machine learning technology to craft beverages with precision. From espresso and tea to iced drinks and smoothies, every cup is made using carefully sourced ingredients, including 100% Arabica beans and filtered water, ensuring a rich and satisfying taste every time.

We understand that quality is more than flavour. That's why every Flying Turtle machine is designed for complete hygiene and safety. Our unique spin-head washing system, combined with automated cleaning processes, reduces human contact and ensures each drink is prepared in the cleanest possible conditions.

Flying Turtle also brings flexibility and convenience to your fingertips. Drinks are fully customisable, from sweetness and temperature to toppings, allowing you to enjoy a beverage tailored perfectly to your preferences. Our machines are available 24/7, making it easy to enjoy your favourite drinks whenever you like.

We are proud to introduce Flying Turtle to the UK market. Our commitment is to keep innovating, improving, and delivering beverages that are fresh, delicious, and convenient. Experience the future of drinking with a machine designed to put quality, safety, and taste first—every single time.

We look forward to welcoming you to the TAO BIN experience.

Warm regards,
The FLYING TURTLE Team

START

Your beverage journey starts here!

We start by selecting only the best premium ingredients to provide customers with unforgettable deliciousness in every cup.

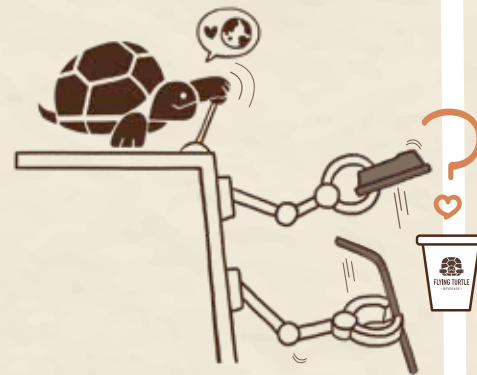

RO-purified drinking water is used to make our beverages. It is sterilized by UV light, which to ensure cleanliness and safety.

We only use pure RO water to make our ice eliminating the worry of contaminants and inconsistent taste.

Many Flying Turtle recipes were crafted by our award-winning Barista, Sensei. Our machine weighs, measures, and brews all ingredients using a high-tech system to deliver our handcrafted recipes consistently every time.

We want our customers to be involved in protecting the environment. That's why we offer the option to accept or decline lids and straws, helping to reduce waste and fight global warming.

Because we care, we want our customers to enjoy a drink that tastes the same every time they use our service.

We emphasise cleanliness and hygiene as our number one priority. All machines are cleaned and inspected during each visit.

The machine will wash the dispensing & mixing heads after every cup served using hot high-pressure water, eliminating the problem of dirt and contaminants.

• Every cup of "Flying Turtle" •

100% rich whole milk powder from the UK.

We use only 100% milk powder – no creamer – to give you a premium, calcium-rich taste. Every drink is clean, safe, delicious and FDA-certified.

"Arabica" coffee beans. 100%

Real Freshly ground arabica

Flying Turtle uses only 100% freshly brewed arabica coffee, ground within the machine to produce high-quality espresso to order. We mix 3 level of roasting to produce our premium taste.

We routinely stock additional light-roast specialty beans to provide ever changing limited edition coffee experiences – enjoyed hot or iced

We use arabica beans freshly ground to order, alongside other premium ingredients

Fully Unattended – A robotic, fully-automated barista available 24/7 to meet customer demand

Contactless payment for quick and convenient transactions.

24/7 Support – Connected online around the clock, our 24/7 service team can promptly provide support or setup at any time

Small Footprint – Beautifully modern design combined with an intuitive UI and fun branding

Flying Turtle Café Machine

By combining the best specialty ingredients with modern technology, cloud computing, and robotics, we are transforming the entire cafe experience.

A state-of-the-art machine here to provide you irresistible, customizable, gourmet beverages on the go and on-demand. The Flying Turtle BaristaBot uses freshly ground Arabica coffee and top ingredients to deliver quality, consistency, and convenience all in 1 square meter.
